

SAFETY DATA SHEET

CEM I CEMENT

11th Oct 2021

Page 1 of 12

Complying with Regulation (EC) No 1272/2008 (CLP) as amended by Commission Regulation (EU) 2015/830. Complying with Israeli Safety at Work Regulations (Safety Data Sheet, Classification, Packaging, Labelling and Marking of Packaging) - 1998 and SI 2302, based on EU Regulation (EC) No 1272/2008 (CLP).

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier

Product name: CEM I CEMENT
CAS Number: Mixture
EC Number: Not applicable
REACH No: Not applicable

1.2 Relevant identified uses of the substance or mixture and uses advised against:

Relevant identified uses: Multi-use cement, useful in all construction elements – blocks, bricks, ready-mix concrete, floor tiles and prefabricated concrete.
Uses advised against: Uses other than those described above.

1.3 Details of the supplier of the safety data sheet

Company Name: Nesher Israel Cement Enterprises LTD.
Company Address: POB 5, Ramla
7210001 Israel
Company Tel: +972-8-9271717
Contact Name: Shavit Dan
E-mail address of person responsible for this SDS: sdan@nesher.co.il

1.4 Emergency telephone number

Emergency telephone number (including hours of operation): +972-8-9253551

Poison Centre Information: Israel Poison Information Centre, Rambam Health Care Campus,
P.O.Box 9602, Haifa 31096, Israel.
Phone (972-4) 854-2725. Fax (972-4) 854-2092

SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification in accordance to Regulation (EC) No. 1272/2008 (CLP/GHS)

Product name	GHS Classification
CEM I CEMENT	Skin Corrosion (Category 1), H314 Skin Sensitisation (Category 1B), H317 Serious Eye Damage (Category 1), H318 Specific Target Organ Toxicity - Single Exposure (Category 3), Respiratory System, H335

2.2 Label elements
Labelling in accordance with Regulation 1272/2008 (CLP)
Hazard pictograms:

Signal word: DANGER

Hazard statements:
 H314 - Causes severe skin burns and eye damage
 H317 - May cause an allergic skin reaction
 H335 - May cause respiratory irritation

Precautionary Statements:
 P260 - Do not breathe dust / fume / gas / mist / vapours / spray.
 P280 - Wear protective gloves/protective clothing/eye protection / face protection.
 P301+P330+P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
 P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
 P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 P310 - Immediately call a POISON CENTER / doctor.

Supplemental Hazard Statements. None known

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS
3.1 Substances :
 Not applicable.

3.2 Mixture :

Product/ Ingredient name	Identifiers	%	Classification 1272/2008/EC	M Factor	Specific conc'n limits (SCL)	Acute toxicity estimate (ATE)
Clinker	CAS No 65997-15-1 EC No 266-043-4 REACH No n/a	> 90%	Skin Irrit 2, H315 Skin Sens 1B, H317 Eye Dam 1, H318 STOT SE 3, H335	1	No SCL in Annex VI	No ATE in Annex VI

Product/ Ingredient name	Identifiers	%	Classification 1272/2008/EC	M Factor	Specific conc'n limits (SCL)	Acute toxicity estimate (ATE)
Limestone	CAS No 1317-65-3 EC No 215-279-6 REACH No n/a	< 5%	Not classified as hazardous under CLP	1	No SCL in Annex VI	No ATE in Annex VI
Calcium sulphate dihydrate	CAS No 10101-41-4 Index No 600-148-1 REACH No n/a	< 5%	Not classified as hazardous under CLP	1	No SCL in Annex VI	No ATE in Annex VI

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in section 8.
See section 16 for the full text of the EUH, H and P phrases declared above.

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Eye contact: Immediately flush eye(s) with plenty of clean water for at least 15 minutes, while holding the eyelid(s) open. Occasionally lift the eyelid(s) to ensure thorough rinsing. Beyond flushing, do not attempt to remove material from eye(s). Contact a physician if irritation persists or later develops.

Skin contact: Remove heavily contaminated clothing. Wash skin with soap and water. Contact a physician if irritation persists or later develops.

Inhalation: Remove person to fresh air. Dust in throat and nasal passages should clear spontaneously. Contact a physician if irritation persists or later develops.

Ingestion: Do not induce vomiting. Never give anything by mouth to an unconscious person. Obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

Causes severe skin burns and eye damage. May cause an allergic skin reaction. May cause respiratory irritation.

Dust may irritate the skin and respiratory tract. Breathing silica-containing dust for prolonged periods in the workplace can cause lung damage and a lung disease called silicosis. Symptoms of silicosis may include (but are not limited to) shortness of breath, difficulty breathing with or without exertion; coughing; diminished work capacity; diminished chest expansion; reduction of lung volume; right heart enlargement and/or failure. Not all individuals with silicosis will exhibit symptoms of the disease. However, silicosis can be progressive, and symptoms can appear at any time, even years after exposures have ceased. Persons with silicosis have an increased risk of pulmonary tuberculosis infection

4.3 Indication of any immediate medical attention and special treatment needed

If any symptoms are observed, contact a physician and give them this SDS sheet.

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media: This product is not flammable. Use fire-extinguishing media appropriate for surrounding materials.

Unsuitable extinguishing media: None known.

5.2 Special hazards arising from the substance or mixture

None known

Hazardous combustion products:

None known.

5.3 Advice for firefighters

Use appropriate protective equipment as conditions warrant (see Section 8).

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breathe dust. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency responders

Wear respiratory protection. Avoid breathing vapours, mist, dust or gas. Ensure adequate ventilation. Evacuate personnel to safe areas.

Wear appropriate protective equipment, such as gloves, goggles and protective clothing, as conditions warrant (see Section 8). See Sections 2 and 7 for additional information on hazards and precautionary measures.

6.2 Environmental precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers . Inform the relevant authorities if the product has entered the environment, including waterways, soil or air. Materials can enter waterways through drainage systems.

6.3 Methods and materials for containment and cleaning up

Small spill: Move containers from spill area. Avoid dust generation. If possible, vacuum dust with equipment fitted with a HEPA filter, and place in a closed, labelled waste container. Dispose of waste material by using a licensed waste disposal contractor.

Large spill: Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. If possible, vacuum dust with equipment fitted with a HEPA filter, and place in a closed, labelled waste container. If vacuuming is not possible, gently sweep (to avoid dust generation). Large spills to waterways may be hazardous due to alkalinity of the product. Dispose of waste material using a licensed waste disposal contractor.

6.4 Reference to other sections

See Section 1 for emergency contact information.

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Put on appropriate personal protective equipment (see Section 8). Avoid exposure by obtaining and following special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe dust. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material and keep the container tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

7.2 Conditions for safe storage, including any incompatibilities

Every attempt should be made to avoid skin and eye contact. Do not get cement inside boots, shoes or gloves. Do not allow wet, saturated clothing to remain against the skin. Promptly remove clothing and shoes that are dusty or wet with cement mixtures. Launder/clean clothing and shoes before reuse. Do not enter a confined space that stores or contains cement unless appropriate procedures and protection are available. This product can build up or adhere to the walls of a confined space and then release or fall suddenly (engulfment).

7.3 Specific end use(s):

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

SECTION 8: EXPOSURE CONTROL / PERSONAL PROTECTION

8.1 Control parameters

Occupational exposure limit values:

Ingredient name	CAS Number	Occupational exposure limits		Source
Clinker	65997-15-1	TWA	4 mg/m ³ (respirable) 10 mg/m ³ (inhalable dust)	EH40 Workplace Exposure limits
		STEL	None known	
Limestone	1317-65-3	TWA	4 mg/m ³ (respirable) 10 mg/m ³ (inhalable dust)	EH40 Workplace Exposure limits
		STEL	None known	
Calcium sulphate dihydrate	10101-41-4	TWA	4 mg/m ³ (respirable) 10 mg/m ³ (inhalable dust)	EH40 Workplace Exposure limits
		STEL	None known	

Monitoring procedures: Use methods described in European Standards.

Derived No Effect Level (DNEL):

8.2 Exposure controls

Appropriate Engineering Measures

Respirable dust should be monitored regularly to determine worker exposure levels. Exposure levels in excess of appropriate exposure limits must be reduced by all feasible engineering controls, including (but not limited to), ventilation, process enclosure, and/or enclosed employee workstations.

Activities that generate dust from hardened product require the use of general ventilation, local exhaust, and/or wet suppression methods adequate to maintain exposures below appropriate exposure limits.

Individual protection measures, such as personal protective equipment:

Eye and face protection:

Safety glasses with side shields should be worn as minimum protection. Dust goggles should be worn when excessively (visible) dusty conditions are present or are anticipated. Use equipment for eye protection tested and approved under appropriate government standards such as EN 166(EU).

Skin protection:

Hand protection: Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Other skin protection: When handling wet concrete, wear impervious gloves and boots. To avoid contamination of face, lips, and ingestion, wash hands before handling food or smoking. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection: Under normal working conditions, no respiratory protection is needed for unhardened concrete. Ventilation: Local exhaust or general ventilation adequate to maintain exposures below appropriate exposure limits. Where protection from nuisance levels of dusts are desired, use type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as CEN (EU).

Thermal hazards: None known.

Environmental exposure controls: Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES
9.1 Information on basic physical and chemical properties

Appearance:	Solid / powder
Colour:	Grey.
Odour:	Odourless
Odour threshold:	No data available
pH:	12 – 13
Melting point/Freezing point:	No data available
Initial boiling point/boiling range:	
Flash point:	Not applicable
Evaporation rate:	No data available
Flammability (solid, gas):	Not flammable
Upper/lower flammability or explosive limits:	No data available
Vapour pressure:	No data available
Vapour density (air=1):	No data available
Relative Density:	2.3 – 3.1
Solubility(ies):	Slightly soluble
Partition coefficient Octanol/Water:	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
Viscosity:	No data available
Explosive properties:	Not expected to be explosive.
Oxidising properties:	Not expected to be oxidising.

9.2 Other information:

No further data available

SECTION 10: STABILITY AND REACTIVITY
10.1 Reactivity

Not expected to be reactive.

10.2 Chemical stability

Stable under normal ambient and anticipated conditions of use.

10.3 Possibility of hazardous reactions

Hazardous reactions not anticipated under normal temperature and pressures.

10.4 Conditions to avoid

Keep away from water. Creates an alkaline (caustic) solution (pH >11). See Sections 5 and 7 for additional information.

10.5 Incompatible materials

None known.

10.6 Hazardous Decomposition products:

None known.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute toxicity:

Product/ingredient name	Test	Species	Dose
Clinker	LD50 Oral	Rat	No data available
	LD50 Dermal	Rabbit	No data available
	LC50 Inhalation	Rat	No data available
Limestone	LD50 Oral	Rat	> 2000 mg/kg bw
	LD50 Dermal	Rabbit	> 2000 mg/kg bw
	LC50 Inhalation	Rat	> 3 mg/L (4h)
Calcium sulphate dihydrate	LD50 Oral	Rat	No data available
	LD50 Dermal	Rabbit	No data available
	LC50 Inhalation	Rat	No data available

Skin corrosion/irritation:	This product is expected to cause severe skin burns.
Serious eye damage/eye irritation:	This product is expected to cause serious damage to eyes.
Respiratory or skin sensitisation:	May cause respiratory irritation. May cause an allergic skin reaction.
Germ cell mutagenicity:	Not expected to cause germ cell mutagenicity.
Carcinogenicity:	Not expected to cause carcinogenicity.
Reproductive toxicity:	Not expected to cause reproductive toxicity.
STOT - Single exposure:	May cause specific target organ toxicity (respiratory system) from a single exposure.
STOT - Repeat exposure:	May cause damage to organs (respiratory system) through prolonged or repeated exposure.
Aspiration hazard:	Not expected to be an aspiration hazard.

SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity:

Substance name	Toxicity to fish / other aquatic invertebrates
Clinker	None known
Limestone	Fish LC50 - Oncorhynchus mykiss (rainbow trout); LC 50 >100 mg/l; 96 h Invertebrates LC50 - Daphnia magna (Water flea); LC50 >100 mg/l 48 h Algae EC50 - Desmodesmus subspicatus (green algae); EC50; 72 h; > 14 mg/l
Calcium sulphate dihydrate	None known

12.2 Persistence and Degradability:

Not determined.

12.3 Bioaccumulative potential:

SAFETY DATA SHEET

CEM I CEMENT

11th Oct 2021

Page 9 of 12

No data available.

12.4 Mobility in soil:

No data available.

12.5 Results of PBT and vPvB assessment:

No data available.

12.6 Other adverse effects:

None known.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods:

Product

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Untreated waste should not be released to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe manner.

Contaminated packaging

Contaminated packaging may contain traces of the product. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff, and contact with soil, waterways, drains and sewers.

SECTION 14: TRANSPORT INFORMATION

International transport regulations

14.1 UN number:

ADR/RID: Not applicable

IMDG: Not applicable

IATA: Not applicable

14.2 Proper shipping name:

ADR/RID: Not dangerous for transport

IMDG: Not dangerous for transport

IATA: Not dangerous for transport

14.3 Transport hazard class(es)

ADR/RID: n/a

IMDG: n/a

IATA: n/a

14.4 Packing group

ADR/RID: n/a

IMDG: n/a

IATA: n/a

14.5 Environmental hazard

Marine Pollutant: No

14.6 Special precautions for user

No data available

SAFETY DATA SHEET

14.7 Transport to bulk according to Annex II of MARPOL and the IBC Code

Not applicable

Section 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

This safety datasheet complies with the requirements of:

EU Commission Regulation (EU) 2015/830 (Reach)

EU Regulation (EC) No 1272/2008 (CLP)

EINECS: All components in this product are listed on the European Inventory of Existing Chemical Substance

15.2 Chemical safety assessment

For this product a chemical safety assessment was not carried out on this product.

Section 16: OTHER INFORMATION

Full text of H & P-Statements referred to under sections 2 and 3.

Skin Corr	Skin Corrosion
Skin Irrit	Skin irritation
Eye Dam	Serious eye damage
STOT SE	Specific Target Organ Toxicity - Single Exposure
H314	Causes severe skin burns and eye damage
H317	May cause an allergic skin reaction
H318	Causes serious eye damage
H335	May cause respiratory irritation

Full text of P-Statements referred to under sections 2.

P260	Do not breathe dust / fume / gas / mist / vapours / spray.
P261	Avoid breathing dust / fume / gas / mist / vapours / spray.
P264	Wash thoroughly after handling.
P271	Use only outdoors or in a well-ventilated area.
P272	Contaminated work clothing should not be allowed out of the workplace
P280	Wear protective gloves/protective clothing/eye protection / face protection.
P301+P330+P331	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P302+P352	IF ON SKIN: Wash with plenty of water.
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER / doctor.
P312	Call a POISON CENTER / doctor if you feel unwell.
P321	Specific treatment (see section 4 to 8 on the SDS and any additional information on this label).
P333+P313	If skin irritation or rash occurs: Get medical advice / attention.
P362+P364	Take off contaminated clothing and wash it before reuse.
P363	Wash contaminated clothing before reuse
P403+P233	Store in a well-ventilated place. Keep container tightly closed.
P405	Store locked up.
P501	Dispose of contents/containers to an approved disposal site in accordance with local/regional/national/international regulations.
